Education

The Ultimate Solution for Mobile Device Management

Make A Difference with our 20 years of experiences

Mobile devices have become essential tools for increasingly being used in various educational environments such as a smart classroom, the need for efficient and secure management is more important than ever for education environments. Mobile Device Management (MDM) is a solution that allows your school or institution to remotely deploy, control, and manage their fleet of mobile devices efficiently.

MDM helps schools and institutions to save time and resources that would otherwise be spent managing devices manually, enabling them to focus on their educational activity without worrying about device management and security.

Trusted Partner for Apple Business in Korea: Beyondtech since 2000

Established in January 2000, Beyondtech, Inc. is a leading IT company dedicated to delivering top-notch software development, localizations, sales, and technical support services to Korean customers. We are one of Apple's longest-standing partners in Korea.

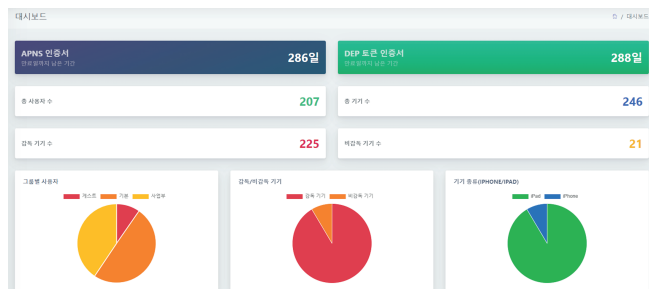

With 20 years of experience in developing Apple platforms, Beyondtech has released MeerkatMDM, an MDM solution that perfectly fits to your diverse work environment and requirements.

It's time to enhance your work productivity and efficiency with MeerkatMDM.

MeerkatMDM is designed to meet the diverse work environment and requirements of organizations of all sizes.

Flexible Deployment Options with MeerkatMDM

MeerkatMDM is a customizable solution that can be tailored to meet the specific needs of your school or institution. We offer flexible deployment options, including remote devices management and profile settings that allow you to specify restrictions such as blocking harmful websites, installing or deleting apps, and preventing unauthorized initialization.

- 1 Customizable configurations to meet your requirements
- 2 Flexible and scalable deployment options
- 3 Easy-to-use user interface
- 4 Simple and intuitive UI to improve work efficiency
- 5 Quick support from expert engineers
